

FISCAL NOTE

TO: Chief Clerk of the Senate
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: February 13, 1996

SUBJECT: **SB 2487 - HB 2622**

This bill, if enacted, will implement the Federal Drivers' Privacy Protection Act of 1994 which prohibits the disclosure of personal information in motor vehicle records except when authorized by the individual or by law. The bill will allow the opportunity for individuals to indicate on license applications and renewals if they do not want personal information released to unauthorized persons without their permission. The bill appears to follow the federal act in exempting certain organizations from this prohibition such as government agencies, insurance companies, attorneys or court personnel. The Department of Safety is in the process of implementing the provisions of the Federal Driver's Privacy Act.

The fiscal impact of this bill is estimated to be not significant since the bill merely implements requirements mandated in federal legislation. Increased expenditures to the state to implement the Federal Act and the resulting loss of revenues from restrictions placed on the sale of driver information records are estimated to occur with or without the passage of this bill.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

James A. Davenport, Executive Director
